Remarkable Gain During Past Year Puts It in Sixteenth Position.

The Richmond custom-house in the fiscal year of 1912-13 won the distinction of being the most efficient and economical in the country. Moreover, the port moved up in rank from twenty-third to sixteenth in point of collections, and took a place among the million-dollar ports. These statements are contained in the annual report of the Secretary of the Treasury, which has just been published.

During the fiscal year ending June 30, 1912, the local custom-house, under Collector B. R. Arnold, collected duty amounting to \$1,026,000.
